

Information About Code

- The output directory is “/user/nam99/Output”
 - The program runs successfully.
- I was not sure whether or not we should divide the weather by 10 to get smaller numbers or not. It is not but it could be very easily.
- All the codes are zipped using the command “tar -jcvf Assignment5.tar.bz2 .”, and decompress by using “tar -jxvf Assignment5.tar.bz2 -C .”.
